

Hello All!

We received our water bill for the month of December and it is about \$1500.00 more than previous months!!!

The total bill for this month is \$4800.00! The bill is not due to a rate hike, but to our water usage. Here are things we need to do right away:

Please:

- Check for leaks!!!

 - Faucets, toilets, any water sources outside and in!

- Put a lock and cover on outside faucets.

 - link to lock option:

 - <https://www.homedepot.com/p/ConservCo-Hose-Bibb-Lock-with-Padlock-DSL-2/309101913>

- Review your household water usage and figure ways to use less.

 - i.e. take cars to the Car Wash on Division

- If you have had a leak and it has been repaired, the Water Bureau may make an adjustment to our bill.

Let us know if you can think of anything else we can do. We just raised our dues in November. Hopefully we won't have to raise them again to cover the cost of sewer and water.

Thank you for your help and cooperation!
